

Roma Tre University

There are 12 departments offering courses in Master's, Master's, Postgraduate, PhD programs, Doctoral Schools and Specialization Schools.

In the implementation of the new teaching offer, defined according to the needs of a European and international labor market, Roma Tre is fully committed to proposing training courses that enable high levels of vocational specialization and research preparation.

In Rome Tre has been introduced the quality control of services and the monitoring of the organization and management of the didactics to ensure efficiency and encourage the motivation of those who work and study at the University.
